ABSTRACT

Fall 1983 statistical data on the age distribution of students at New York public and private colleges and universities are presented, based on the 1983-1984 HEDS/Higher Education General Information Survey form NYSED-2.6, "Enrollment by Level, Age Cohort and Sex, Fall 1983." Data are provided for full- and part-time undergraduate students, first-time students, first-professional students, graduate students, and total full- and part-time students. This information is presented for the following institutional types: total state, total public, total State University of New York, total City University of New York, total independent, total proprietary, total four-year or more, and total two-year. In addition, these categories are subdivided by type of division or center. The age categories are as follows: under 15, 15-19, 20-22, 23-24, 25-29, 30-34, 35-44, 45-59, and 60 and over. Lastly, age distribution trends are presented for fall 1979, fall 1981, and fall 1983 by category of student and age. (SW)

The data summaries contained in this report were obtained from the 1983-84 HEDS/HEGIS survey form NYSED-2.6, "Enrollment by Level, Age Cohort and Sex, Fall 1983."

The number of students reported in this publication does not correspond to official fall 1983 enrollment figures reported in College and University Admissions and Enrollment. Data reported in the College and University Age Distribution of Students publication represents approximately 96.1% of official enrollment.

Due to rounding, percentage distributions may vary slightly from 100.0%.
